

SB SERIES AERATOR

BUILT FOR RESULTS OVERBUILT TO LAST

Achieve maximum grass production from every acre with the new SB Series Aerator. Fracture the hardest soils with the robust design featuring RanchTech® blades and patented spiral drum in sizes designed to fit your soil type.

The durability instilled into every component of this implement is ready to tackle the toughest jobs. Hydraulic landing gear and multi-ply aircraft tires allows for easy transport even with water filled drums.

The RanchWorx® SB Series has a variety of customizations available. An adjustable drawbar allows for pulling of other implements behind the aerator. A broadcast seeder package means perfect seed dispersion behind the aerator to take advantage of the newly opened soils.

THE RANCHTECH® BLADE ADVANTAGE

The new RanchTech® blades have a beveled and tapered edge that sharpens with use. This new forged alloy gives the blades a **35,000+ acre** lifespan.

The RanchWorx® Advantage comes from the wide sharp blades and spiral design. This design allows for the weight of the unit to cut, not tear, the root system. Since the blades are truly no-till, the plants will respond quickly and favorably.

Reduce subsoil compaction	✓						
Grass stand setback							✓
Seasonal repair		✓		✓			✓

SL SERIES

SR/SR3 SERIES

BUILT FOR RESULTS OVERBUILT TO LAST

The **SL Series** shares many functions and features of the well-known SB Series Aerators. When your application is relieving compaction, cutting the rhizome, and soil aeration – the SL Series gets the job done.

RanchWorx Aerators utilize new drum diameters to fit a wider range of HP applications, while still utilizing our Commercial-Grade RanchTech® Blades found on all RanchWorx® Series aerators.

The RanchWorx **SR** and **SR3** Series meets the needs of those who have smaller acreage or require an aerator that's highly maneuverable.

Offered in a variety of drum sizes, the SR Series offers the benefits of a pull-type aerator. Each aerator includes a heavy-duty hydraulic lift system along with aircraft tires for transport.

Being a 3-PT mount, the SR3 Series is a great option for smaller to medium applications. SR3 Aerators are designed to fit class I – II – III connections.

THERE IS NO BETTER WAY TO AERATE THAN WITH RANCHTECH® BLADES

SL Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 30" SL	40+	760	3,500 lbs	5,300 lbs
10' x 30" SL	50+	720	4,100 lbs	6,500 lbs
12' x 30" SL	60+	690	4,600 lbs	7,600 lbs
8' x 36" SL	50+	940	4,000 lbs	6,600 lbs
10' x 36" SL	60+	890	4,600 lbs	8,000 lbs
12' x 36" SL	70+	860	5,200 lbs	9,500 lbs

SR/SR3 Series	MIN. HP	LBS PER FT.	DRY	W/ WATER
8' x 20" SR	30+	500	2,700 lbs	3,500 lbs
10' x 20" SR	40+	470	3,100 lbs	4,200 lbs
12' x 20" SR	50+	450	3,600 lbs	4,900 lbs
8' x 20" SR3	30+	386	1,800 lbs	2,700 lbs
10' x 20" SR3	40+	378	2,300 lbs	3,400 lbs
12' x 20" SR3	50+	382	2,800 lbs	4,200 lbs

* All widths are measured from outside to outside of implement, drum width approx. 12" less, weights approx. Prices and specifications are subject to change. Tractor horse powers are suggested ranges and vary according to soil conditions and topography.
